Student Setu: demo video script (2 speakers, 3 phases)

कुल लंबाई: लगभग 4 मिनट 30 सेकंड (नियम है 3–5 मिनट)

Phase	क्या	कैसे रिकॉर्ड करें	समय
1	Introduction, Problem, Solution	दोनों का कैमरा ऑन (Clipchamp)	~45 सेकंड
2	Prototype demo	मेरी बनाई video + आप दोनों की आवाज़	**3:13**
3	Impact, Conclusion	दोनों का कैमरा ऑन (Clipchamp)	~35 सेकंड

- **Speaker A = आप (Student वाला हिस्सा)**
- **Speaker B = आपका दोस्त (Teacher वाला हिस्सा)**
- ‹ › वाली जगहों पर अपने असली नाम, टीम का नाम और कॉलेज भरें।
- सारी lines आसान English में हैं, क्योंकि judges ज़्यादातर English में देखते हैं। चाहें तो इन्हें Hinglish में बोल सकते हैं, बस मतलब वही रखें।

PHASE 1: Introduction (कैमरा ऑन, लगभग 45 सेकंड)

Setup: दोनों एक frame में बैठें, सामने से रोशनी हो और पीछे साफ़ दीवार। Clipchamp में **Record** → **Camera** चुनें।

A (0:00–0:10)

> "Hello judges! I'm **‹Your Name›**, and this is my teammate **‹Friend's Name›**. We are team **‹Team Name›** from **‹College, State›**."

B (0:10–0:25)

> "Here's the problem. According to the India Skills Report 2025, almost **half of Indian graduates are not job-ready**. Only about **4%** of Indians have formal vocational training. And with around **27 students per teacher**, teachers have no time to see who is falling behind."

A (0:25–0:40)

> "So we built **Student Setu**, one platform with three pillars. **Skill Bridge** shows students the exact gap between their syllabus and their dream job. **Teacher Copilot** gives teachers an AI teaching assistant. And everything works in **Hindi**, on **slow internet**."

B (0:40–0:45)

> "Let's see it live!"

PHASE 2: Prototype demo, voiceover (video 3:13)

File: `Student_Setu_Prototype_Demo.mp4`, 1080p, बिना आवाज़ के।

Video के नीचे बाईं तरफ़ हर scene का नंबर और नाम (label) दिखता है, जिससे पता रहता है कि अभी कौन सा हिस्सा चल रहा है।

आवाज़ कैसे रिकॉर्ड करें:

1. Clipchamp में video चलाएँ और साथ में **Record → Audio** से बोलें।
2. या अपने फ़ोन के Voice Recorder में बोलें, बाद में जोड़ दें।
3. ऊपर-नीचे 1–2 सेकंड का फ़र्क़ चलेगा, बस आवाज़ को video के साथ खिसका कर मिला दें।

Student वाला हिस्सा: Speaker A

समय	स्क्रीन पर	A बोलेगा
0:00–0:10	Home page	"This is Student Setu, live on the web. Students, teachers and vocational learners all start here."
0:10–0:17	① Profile: B.Tech, RGPV, Semester 5, Web Developer	"I'm a 5th-semester B.Tech student at RGPV. I pick my course, university, semester, and my dream job: Web Developer."
0:17–0:29	② Gap Map: 12% job-ready, 26% by graduation	"The **Gap Map** compares my real syllabus with what web-developer jobs ask for. Even by graduation, it covers only **26%**. When I rate what I already know, my readiness goes up live."
0:29–0:37	③ Learning plan, 90 min	"Then I get a **week-by-week plan** from free courses. At 90 minutes a day, it tells me exactly how many weeks I need."
0:37–1:02	④ HTML & CSS test, Badge earned	"To prove a skill, I take a short test. The answers are checked **on the server**, never in my browser, so nobody can cheat. I scored 5 out of 5 and earned a **Verified Skill Badge**."
1:02–1:06	④ Badge verification: Genuine	"Any employer can open this link and confirm it's genuine."
1:06–1:23	⑤ **Study Resources**: B.Tech, RGPV, Year 3, Sem 5, DBMS, **PYQs**, Syllabus	"For daily study, **Study Resources** has free **notes, previous-year papers and syllabus**, organised just like a university: course, university, year, semester and subject. Here are RGPV's DBMS question papers, free to download, and the latest syllabus too."

Teacher वाला हिस्सा: Speaker B

समय	स्क्रीन पर	B बोलेगा
1:23–1:29	⑥ Teacher Copilot, "Teacher login required", demo teacher, Verified badge	"Now the teacher side. Running a class needs a **verified teacher** account, like Professor Meena here."
1:29–1:42	⑦ Lesson planner: Semester 3, Data Structures, topic typed, plan appears	"She picks her syllabus subject and types today's topic. In one click, Copilot builds a complete **lesson plan**: objectives, a minute-by-minute timeline, an activity and homework."
1:42–1:55	⑦ Make a quiz, Generate, Assign, class code, WhatsApp	"One more click turns it into a **quiz**, with answers and explanations. She assigns it to her class and gets a **6-letter code** to share on WhatsApp."

Phone वाला हिस्सा: Speaker A

समय	स्क्रीन पर	A बोलेगा
1:55–2:20	Phone: code, Join, Verified teacher, quiz, "You scored 4/5"	"On my phone, I just type the code. **No login, no app download.** I can see the class is run by a verified teacher from a real college. I answer the quiz, and it's graded instantly: 4 out of 5, with explanations for every question."

Insights वाला हिस्सा: Speaker B

समय	स्क्रीन पर	B बोलेगा
2:20–2:25	⑧ Classes & insights: 1 submission, 80%	"Back on the teacher's screen, the result has already arrived."
2:25–2:36	⑧ Demo class (26 students), heatmap, Normalization 31%, Plan a re-teach lesson	"In a full class of 26 students, the **weak-topic heatmap** shows only **31%** understood Normalization. One click, and a re-teach lesson is ready."

Trust और Bharat-first वाला हिस्सा: Speaker A

समय	स्क्रीन पर	A बोलेगा
2:36–2:48	⑨ Admin login, Verify teachers, Rakesh Verma verified	"How do we know teachers are real? Every new teacher signs up with their college and employee ID, and an **admin verifies** them before they can run classes."
2:48–3:00	⑩ Home in Hindi, back to English, Lite mode (green)	"Student Setu is built for Bharat. The whole site works in **Hindi** with one tap, and **Lite mode** saves data on slow 2G and 3G connections."

आख़िरी हिस्सा: Speaker B

समय	स्क्रीन पर	B बोलेगा
3:00–3:13	⑩ Vocational, Electrician, Hindi modules, सुनें, apprenticeship links, "Try it live"	"For vocational learners, there are **7 trade courses** like electrician, solar and mobile repair, in Hindi, with **listen-aloud** audio and links to paid apprenticeships. Try it all live right now!"

PHASE 3: Conclusion (कैमरा ऑन, लगभग 35 सेकंड)

Setup: Phase 1 वाली ही जगह और वही रोशनी, ताकि दोनों हिस्से एक जैसे लगें।

B (0:00–0:12)

> "Student Setu can reach the **4.3 crore students** and **16 lakh teachers** in Indian higher education. Students find their skill gap from semester one, and teachers teach with real data."

A (0:12–0:24)

> "It's already a **working, live prototype**. It runs in any phone browser, needs no app, and costs almost nothing to run. Next, we want to pilot it with government and local colleges."

दोनों साथ में (0:24–0:32)

> **A:** "Student Setu." **B:** "Bridging Students, Building Futures." **दोनों:** "Thank you!" 🙏

Screen पर text लगाएँ (Clipchamp → Text): `studentsetuconnect.netlify.app`

Clipchamp में जोड़ने का तरीका (10 मिनट)

1. **Import करें:** Phase 1 वाली camera video, मेरी demo video और Phase 3 वाली camera video।
2. **Timeline पर लगाएँ:** इसी क्रम में (1 → 2 → 3)।
3. **आवाज़ जोड़ें:** Demo video के नीचे अपनी voiceover audio रखें और ऊपर दिए समय के हिसाब से मिलाएँ।
4. **Transitions:** हर हिस्से के बीच **Transitions** → **Fade** लगाएँ।
5. **Music (optional):** Background में हल्का music रखें, volume 10–15% पर ताकि आवाज़ दबे नहीं।
6. **Subtitles: Captions** → **Auto captions** चालू करें। Judges अक्सर बिना आवाज़ के देखते हैं।
7. **Export: 1080p** में।
8. **Upload:** YouTube पर **Unlisted** डालें (या Drive पर "Anyone with the link")।
9. **Deck में link डालें:** यह link PPT की slide 3 और 7 में ‹Add demo video link› की जगह लगाएँ।

ज़रूरी बात: AI वाला हिस्सा

यह video मैंने आपकी website के उसी code से अपने workspace में रिकॉर्ड की है। वहाँ से Gemini AI और आपकी live site तक पहुँच नहीं है।

इसलिए **1:29–1:55** में दिखने वाला lesson plan और quiz website के **built-in template / question bank** से आए हैं, Gemini से नहीं। इसी वजह से script में यहाँ "Gemini ने लिखा" नहीं कहा गया है।

सबसे अच्छा नतीजा चाहिए तो:

1. Live site पर demo teacher से login करें।
2. Lesson planner में **हिंदी** चुनें और lesson plan बनाएँ।
3. यह 10–15 सेकंड की screen recording (Win+G से) करें।
4. Clipchamp में 1:29–1:42 वाले हिस्से की जगह लगा दें।
5. फिर B बोल सकता है: *"...generated by **Google Gemini**, in Hindi."*
