Student Setu: prototype demo voiceover script

Video: `Student_Setu_Prototype_Demo.mp4` (3:13) · **2 लोग, 16 lines**

Speaker	कौन	कौन सी lines
A	आप	Student वाला हिस्सा: lines 1–7, 11, 14, 15
B	दोस्त	Teacher वाला हिस्सा: lines 8–10, 12, 13, 16

हर line के साथ उसका **समय** और **स्क्रीन पर क्या दिख रहा है** लिखा है। Video के नीचे बाईं तरफ़ जो नंबर वाला label दिखता है (①, ②...), वह भी लिखा है, ताकि आपको पता रहे कि कहाँ हैं।

रिकॉर्ड कैसे करें (ताकि मैं आसानी से merge कर सकूँ)

तरीका 1: हर line की अलग audio file (सबसे अच्छा)

1. **हर line अलग रिकॉर्ड करें।** File का नाम line नंबर और speaker से रखें:
   - `01_A`, `02_A`, ... `08_B`, `09_B` ... `16_B`
2. **Phone का Voice Recorder काफ़ी है।** शांत कमरा चुनें, पंखा/AC बंद रखें, phone को मुँह से एक हाथ दूर रखें।
3. **शुरू और आख़िर में आधा सेकंड चुप रहें**, फिर line बोलें।
4. **आराम से, साफ़ बोलें।** Line दिए गए समय से 1–2 सेकंड लंबी हो जाए तो चलेगा, मैं ठीक कर दूँगा।
5. **सारी 16 files** यहाँ chat में भेज दें। मैं हर line को उसके सही समय पर video में लगा दूँगा।

तरीका 2: एक ही लंबी recording

1. Laptop पर video **बिना आवाज़** चलाएँ।
2. Phone पर recording शुरू करें और **ताली बजाएँ**, फिर ठीक उसी पल video play करें।
3. दोनों मिलकर अपनी-अपनी line उसके समय पर बोलें।
4. वह एक file भेज दें।

Format: mp3, m4a, wav, कोई भी चलेगा।

बोलने के tips

- **Practice:** रिकॉर्ड करने से पहले हर line 2–3 बार video चलाते हुए बोलें, ताकि speed बैठ जाए।
- **Energy:** मुस्कुरा कर बोलें, आवाज़ में energy आती है।
- **Numbers साफ़ बोलें:** "twenty-six percent", "four out of five"।
- **Pause:** हर line के बाद आधा सेकंड रुकें, जल्दी न करें।
- **गलती हो जाए:** वह line दोबारा रिकॉर्ड कर लें। पूरी recording दोबारा करने की ज़रूरत नहीं।

आगे क्या होगा

1. आप audio files भेजेंगे। मैं उन्हें video में जोड़कर **आवाज़ वाली final demo video** दूँगा।
2. **(Optional)** Phase 1 (Intro) और Phase 3 (Conclusion) वाली camera videos भी भेज दें। मैं तीनों को जोड़कर **पूरी 4:30 मिनट की final video** बना दूँगा।
